**Membership Application**

Thank you for your interest in the Sacramento Valley Division of the Toy Train Operating Society. We are toy train operators and collectors who generally meet once a month to talk, play, and otherwise enjoy model trains and exchange ideas and advice on layouts, repairs, restoration, and sources for all phases of the toy train hobby. Only members of the national Toy Train Operating Society are eligible to join the Division, so if you are not currently a TTOS member, please complete the national membership application in addition to this application. Your personal information is not shared outside the club. Annual membership dues for the Division are \$20 for an individual membership or \$25 for a family membership. Dues are due January 1 of every year and are considered in arrears if not paid by the date of the March meeting. A \$5 late fee is charged for renewals received after that date.
